PATENTED MICROMATIC® BED LEVELLING guarantees level playing surface for the life of the table.

The "FB" series is more pool table than ever before presented at a low-medium price level. It has all the essential elements of a top value product including Micromatic® levellers, ¾" solid bed, 100% wool cloth, deluxe 4 player score counters and gum rubber cushions. These features are usually identified with tables at a much higher price level.

Here's a lower priced model with many high-priced features. The "FA" series is a fine example of contemporary styling. Vintage Walnut side aprons, rust colored billiard cloth and harmonizing top rail trim are combined with typical F-W high quality and solid construction.

Frederick-Willys
